

MATES IN CONSTRUCTION

Our recent BBQ at the SCT Project was proudly supplied by Waratah Roofing and made extra special with a visit from MATES in Construction.

MATES delivered a short but powerful message on mental health in the construction industry, highlighting the importance of looking out for one another and breaking the stigma.

A big thank you to all who joined — it's conversations like these that build stronger, safer worksites.

"It starts with a conversation. One conversation can save a life."
